

GEMEENSKAP NUUSBRIEF

2020 APRIL

## BOOKS FOR PARENT-TEACHERS

20 Loeriesfontein parents, who graduated as accredited parent-teachers last year, received study books to build their children's language and confidence.

This language programme trains teachers and parents of young learners at Loeriesfontein Primary School. Launched in 2019, the programme has been a great success so far.

It helps parents to provide better support at home, develop their children's language skills through play techniques and to realise that they are their children's first teachers, an important and critical role in a child's development

"This programme is not only about academics, but it also helps parents to build a better relationship with their children."

Joline Klaaste, Acting Principal at Loeriesfontein Primary School.

## STUDIEBEURSE VIR JEUG

Anna Pieters is een van tien studente van Loeriesfontein wat met behulp van 'n studiebeurs van die Khobab-Windkragaanleg studeer. Al die begunstigdes van die studiebeursprogram is van Hoërskool Loeriesfontein.

Ses nuwe studiebeurse is gedurende 2019 aan meestal eerstejaarstudente toegeken. Die studiebeurse het sedert dit in 2018 bekendgestel is al geleenthede aan talle jongmense gebied.

Die aansoeke vir studiebeurse in 2021 open in September vanjaar en aansoekvorms is by die windkragaanleg se projekkantoor beskikbaar.

"Die student moet 'n inwoner van Loeriesfontein wees en sy/haar matriekpunte moet goed genoeg wees vir hom/haar om keuring by 'n kollege of universiteit te kry. Die gesamentlike inkomste van die gesin waaruit die kind kom mag nie die voorgeskrewe perk oorskry nie."

## A SAFER COMMUNITY

Congratulations to everyone who completed their First Aid, Fire Fighting and Health & Safety Training. The training was funded by the wind farms and attended by the Isibindi team, Loeriesfontein Primary School, Loeriesfontein High School, local entrepreneurs and ECD Centres, who also received their own First Aid Kit on completion.
